

## Part 11 Further resources

### Books

When looking for books about weaving, you want those that are about Rigid Heddle weaving. Four or eight shaft weaving is a somewhat different technique and books about those will not be helpful.

Here are some books that are ideal resources, including some about making clothing from narrow weaving done on the rigid heddle loom.

[The Weaver's Idea Book](#) by Jane Patrick, published by Interweave Press

[Hands on Rigid Heddle Weaving](#) by Betty Linn Davenport, published by Interweave Press

[Get Weaving: Clothing from Your Rigid Heddle Loom](#) by Sarah Howard and Elisabeth Kendrick, published by Leiston Press

[Weave \\* Knit \\* Wear](#) by Judith Shangold, published by XRX books (about making clothing with weaving and finishing it with knitting)

### Guild and groups

The Association of Guilds of Weavers, Spinners and Dyers in the UK. The Association has a presence in worldwide so look online for the one in your country

[www.wsd.org.uk](http://www.wsd.org.uk)
